Professional Summary

I'm a junior developer interested in coding, problem-solving, and web development. I have an expertise in HTML + CSS, JavaScript, Node.js, React.js, & Haxe (HaxeFlixel). Additionally, I have a creative side, and occasionally dabble in 2D animation using Adobe Flash/Animate. Through my work, I have developed skills in software development, front-end and back-end programming, and API integrations. I enjoy solving challenges, developing my coding skills further, and creating innovative solutions. My goal is to continue growing as a developer and animator and produce effective, well-designed digital experiences.
